

INTRODUCTION

The second half of 2021 has been a busy time for CISTC!

We are continuing to offer several online courses, as well as, expanding our onsite courses with the opening of our new training rooms at our Training Complex just outside Farnham.

In September, MP Leo Docherty officially opened 6 new state-of-the-art training rooms. These additional training facilities allow us to deliver more training courses and ultimately provide candidates with the skills and knowledge needed to access a career in construction. You can read more on Page 2

Our portfolio of training courses has also grown. We have added EUSR (SHEA) Drains & Sewers to our ever-growing list of courses.

On the back of signing the Armed Forces Covenant earlier in the year, the CISTC team attended the BFRS National Careers Fair. This gave us the opportunity to showcase the variety of roles available in the construction industry and how the team at CISTC can help ex-military workers build a pathway with the training needed to start a career in Construction.

We look forward to seeing what the new year has in store for CISTC!

Keep safe, upskill and learn to succeed.

GOOGLE REVIEWS

"Excellent service and great knowledge shown. I will definitely be returning for any future training. Highly recommended!"

- Peter Barry

"Just completed the week long NRSWA course as an operative. Excellent course - our trainer, Andi, was superb and had great knowledge about the whole course. The facilities were brilliant and very clean. Would 100% recommend the centre for training."

- Martin Thatcher

"Really great training, engaging and interactive. By far the best Health & Safety training I've had to date."

- Jamie Easterbrook

"Excellent training course. Andi was amazing and explained everything."

- Penny Geeson

NEW TRAINING FACILITIES

In September, CISTC were proud to unveil 6 new state-of-the-art training rooms situated in a second training complex at our construction training centre in Farnham, Surrey.

The facilities were officially opened by Leo Docherty, Minister for Defence People and Veterans and Aldershot MP and CISTC's Managing Director John Whelan.

Leo Docherty has served as the Member of Parliament for Aldershot since 2017. He attended the Royal Military Academy Sandhurst and was commissioned into the Scots Guards in 2001. He then served in Iraq and Afghanistan with the 1st Battalion Scots Guards and 16 Air Assault Brigade. As Parliamentary Under Secretary of State (Minister for Defence People and Veterans) he is responsible for armed forces, veterans and civilian people policy.

After the opening and speeches, given by Mr Leo Docherty and Paddy Baines MBE, everyone enjoyed a light lunch. Leo was then given the opportunity to tour the rest of our training grounds and try his hand on one of our 360 excavators on our plant training field. Led by our expert trainer, Dimi Simicevas, he was able to see first-hand the quality of plant and training that we provide.

Following our recent signing of the Armed Forces Covenant, it is hugely important for us to demonstrate our respect and support for the Armed Forces Community. In recognition of this, we also invited some of our Natta personnel who are ex-military personnel to join us for the event.

Minister for Defence People and Veterans Leo Docherty said: "I was delighted to visit the Construction Industry Safety Training Centre and see the fantastic work they do in training and upskilling veterans."

"Employment and training is a key part of transitioning into civilian life and it was great to see the amazing work the centre does in helping those who have served."

Managing Director John Whelan, also commented: "I want to thank Leo for officially opening our new training rooms today. I am proud that we are providing a centre of training excellence here at CISTC and that my vision for our training business is being realised. The expansion of our training centre will allow us to reach more candidates and improve the quality of training that we can offer. We are excited to see the growth these new facilities will bring to the company and look forward to welcoming more candidates to CISTC."

Our Facilities

At CISTC, we aim to provide the construction industry with the resources that are needed to drive forward our passion for learning and shared knowledge.

This also addresses the need within the UK's construction industry to address the problem of bridging the skills gap. We need to attract more school leavers, students and veterans into the industry. As a CITB Approved Training Organisation, CISTC offers a wealth of accredited courses, designed for construction management, machine operatives and site operatives. Our extensive course list enables existing construction employees to keep their construction skills up-to-date and to progress within their careers. For veterans, school leavers and students the training will equip them with the skills needed to access a career in construction.

With this addition, our training centre now includes:

- 9 air-conditioned training rooms
- 4-acre plant training field
- Canteen with inside and outside seating, serving home-cooked food
- Free on-site parking

EUSR (SHEA) DRAINS AND SEWERS

EUSR SHEA Drains and Sewers Passport

This 1 day course is designed for individuals who work with drains and sewers and require access to operational sites within the drainage and sewerage industry, both permanent and temporary, at all levels including operatives, supervisors and management.

£125+VAT

Course Description

This is a 1 day EUSR Safety Health and Environment Awareness (SHEA) Drains and Sewers Course.

The Utility Safety Health and Environment Awareness (SHEA) portfolio of schemes have been developed in conjunction with industry to provide a uniform approach to health, safety and environmental awareness training across the utilities sector, in line with Health and Safety Executive guidelines.

The programme content and scheme specification have been developed in collaboration with The National Association of Drainage Contractors (NADC). Programme material is produced and managed by Energy & Utility Skills on the drainage and sewerage industry's behalf. The content is reviewed periodically and consists of six core modules and two specific to the drainage and sewerage industry. All individuals will need to complete all eight modules and pass the SHEA Drains and Sewers assessment to receive the SHEA Drains and Sewers registration. The programme may only be delivered by trainers approved by Energy & Utility Skills.

The programme will be delivered through the context of the drainage and sewerage industry.

How do I get a EUSR Card?

Registration is based on the successful completion of a training programme and assessment. Following training the EUSR approved trainer will apply to register the trainee. EUSR cards are issued within 28 days of receipt of the necessary completed paperwork and payment. Operatives are issued with a cover note following training to confirm completion of the training and assessment while they wait for their card to be issued.

Registration and card supply costs are £30 + VAT.

CSCS Affiliation

The Utility SHEA (Drains and Sewers) scheme is affiliated with the CSCS to allow drainage and sewerage industry workers access to construction sites for purposes of utilities work without the need to complete a separate CSCS card.

Requirements:

A good level of written and spoken English is required to successfully complete this course. If you have any concerns regarding this please contact our office and we discuss available options (e.g. hiring a translator at an additional cost).

How is the course delivered / assessed:

This course comprises of a trainer lead presentation and assessment. Trainees will be called upon to share their experiences and thoughts throughout, to build on the course material.

What is awarded after completion of the course?:

Once the course has been completed candidates will receive a EUSR SHEA Drains and Sewers Passport.

When does the qualification expire?:

The EUSR Utility SHEA Drains and Sewers Passport Card is valid for 3 years from the date of training. After which the course will require renewal by anyone still working within the industry. Please note: the registration gained from the transition route will expire 3 years after the initial course.

If you have any questions please contact us for more information.

CHARITIES & EVENTS

CISTC

🔥🔥 Last night a courageous bunch from **#TeamCISTC** conquered the coals and stepped up (and out) to raise money for **Woking & Sam Beare Hospice and Wellbeing Care**. 🔥🔥

Many thanks to Errol from Planit Firewalking for putting us through our paces, quite literally. 🙌

It's not too late to donate to this worthy cause. Click here 👉 <https://lnkd.in/g-UZay8w>
